The June Barnett Still Life Prize

June Dudley (nee Barnett) was a gifted artist, writer, poet and teacher.

She was born in Shropshire, England and came to Australia in 1953. She started painting in the early 1970's and studied with Shirley Bourne for a number of years.

June held several exhibitions throughout her career which were held at various venues including the Ferntree Gully Gallery, Olinda Gallery and the Cato Gallery at the Victorian Artists Society.

She has won prizes and commendations in many art shows including the A.M.E. Bale awards. In 1997 June was invited to join the prestigious Twenty Melbourne Painters Society.

June was a staunch supporter of the Emerald Arts Society and served on the committee for several years.

Sadly June passed away in February 2022.

The introduction of the June Barnett Still Life award in this year's annual art exhibition will continue to play a major role in future exhibitions and will serve to recognise June's contribution to the arts society and her wonderful abilities as an artist and a teacher.

Judge Lynden Stone

Lynden Stone is a multi-disciplinary artist, and arts educator.

She holds a PhD in Fine Art from the Queensland College of Art, Griffith University where she taught painting and drawing. She also taught at QUT, South Bank TAFE Brisbane and TAFE NSW Murwillumbah.

In 2021, Lynden relocated from Northern NSW to Mt Dandenong. She now teaches art history online for TAFE Murwillumbah and painting and drawing at Rowville Community Centre.

Her practice encompasses several conceptual themes including: "Visualizing the unvisualisable" (the pre-material world of quantum physics), the "Sacred Gaia Healing project" (an hilarious parody of gross exploitative capitalism in the New Age industry) and "The artist's collections" (a painting based project of the real and imagined collections of the artist).

Photography Judge Paul Gallant

Paul Gallant – Photographer, Artist and Teacher

Born in Melbourne in 1950. During my teenage years in the 1960s discovered photography as a hobby and a passion.

In the early 1970s I worked for 4 years in a commercial photographic laboratory servicing the advertising industry. I became skilled in the use of large format (6"x4" and 10"x8") black and white orthographic film and large "trolley" camera photographing artworks, developing and retouching negatives for reprographic work. I went on to manage their color lab for 2 years working with color negative and transparency stock (small, medium and large format).

In the early seventies I retrained as a teacher, majoring in the Arts. I then went on to teach for the next 30 years during which I developed programs in photography for both students and parents.

From 2009 until 2015 I ran weekly classes in photography at the Emerald Arts Society. During these sessions I worked on both the technical and artistic aspects of photography. My main emphasis though has been the individual technical and artistic development of my students according to their existing understandings and talents, and most importantly, their individual artistic expression through photography.
